Manyar Sabrangan 8B

I am a recent graduate from Airlangga University with a background in Information Systems. With a diverse skill set, I excel in both Full-Stack Development and in IT Support. My proficiency lies not only in creating robust web applications but also in effectively troubleshooting technical issues, which sets me apart in the field. I am enthusiastic about the prospect of applying my knowledge and skills in technology-driven environments to actively contribute to fostering innovation and achieving success. This combination of academic foundation and practical expertise equips me to be a valuable asset in any technology-oriented setting.
